
Name

rdpanel — Module for stand-alone sound panel

Synopsis

rdpanel [*OPTIONS*]

Description

The **rdpanel**(1) module provides a single, stand-alone "cart wall" application that allows users to play carts by means of a single button press.

Options

--dump-panel-updates

When this option is given, **rdpanel**(1) will print a dump of the currently loaded sound panel array to standard output each time the Rivendell user logged into the system is changed.
